Draft 3 School Age Education and Care Framework…..

Feedback throughout this project has confirmed that SAC is a distinct sector to early childhood education and care and the qualifications need more specific consideration in the future

There are challenges in defining skill requirements without a national workforce strategy

- *State and Territory jurisdictions are referenced in the Qualification Descriptions*

….. Draft 3 School Age Education and Care Framework…..

The qualifications define the minimum standards for a qualified person to work in an Outside School Hours Care or vacation care service in accordance with Australian State and Territory Legislation

- Note the Qualification descriptions and the associated unit application statements
- Changes in the breadth of electives in the qualifications

Recent Comments

…..Direct Observation in Assessment Conditions….

- The priority for evidence in assessment is direct observation.

- Activities that can't be planned or require unpredictable or sensitive interactions could have a simulation option.

- The Assessment Conditions in units set out the applicable requirements and there are some variations including specific conditions attached to some options.

- ECE units included in the School Age Education and Care Qualifications

Note also the ASQA fact sheets

….. Assessment in the Workplace….

- Referenced in the Qualification packaging rules, for example -

To achieve this qualification the individual must have completed *a total of at least 160 hours of work with school age children in a regulated children's service.* The total number of hours may be applied cumulatively across all units of competency that include a requirement for workplace hours

- and in individual units

perform the activities outlined in the performance criteria of this unit *during a period of at least 160 hours of work with school age children in a regulated children's service*

Note - The hours in existing qualifications are not divided across units – this may be something an RTO is doing but the requirement is expressed as above in the unit reference.
Depending on how assessment tools are structured the requirements of different units can be assessed as part of the same activity.

….Universal Changes…..

As noted at the front of the mapping tables

Examples -

- Application clauses in Units of Competency
- Structure of Assessment Conditions
- Consistency in terminology and references
- *interactions with children must be supervised by an appropriate educational professional*

…. Behaviour…..

Embedded in CHCSAC008 Work collaboratively and respectfully with school age children (Core unit in the Certificate IV and the Diploma) – Refer Element 3

Also embedded in the following ECE child development units which are included in the SAC Qualifications –

CHCECE035 Support the holistic learning and development of children
CHCECE036 Provide experiences to support children's play and learning – element 2
CHCECE038 Observe children to inform practice
CHCECE045 Foster positive and respectful interactions and behaviour in children
CHCECE042 Foster holistic early childhood learning, development and wellbeing
CHCECE046 Implement strategies for the inclusion of all children

….Aspects of Aboriginal and Torres Strait Islander Peoples Cultures…..

Cultural Safety and other feedback received specific to aspects of Aboriginal and Torres Strait Islander Cultures -

CHCECE054 Encourage understanding of Aboriginal and/or Torres Strait Islander Peoples cultures

- replaces CHCDIV002 as a core unit in the SAC Certificate IV and Diploma

…..Imported Units ….

First Aid HLT004 Provide an emergency first aid response in an education and care setting will be superseded by HLT012 Provide first aid in an education and care setting

Updated units can only be included in qualifications once they are endorsed. The BSB training package update approved at the AISC Meeting in August can be included in the CEC update once they are available on TGA.
