1. VET STUDENT OUTCOMES SNAPSHOT – UPDATED VERSION FOR FEEDBACK

Most Smart and Skilled Providers received an updated version of their VET Student Outcomes Snapshot from vetstudent.outcomes@det.nsw.edu.au on Friday 12 June 2020. This new version incorporates suggestions we received regarding the initial Snapshot dashboard which was distributed in November 2019.

a. Your feedback is sought

The Snapshot is part of an ongoing process that the Department is establishing to provide data to training providers, potential students and employers to get better outcomes for VET students across NSW.

The Department is therefore inviting you to please review your Snapshot and provide any feedback you may have on how we can make this information more useful for your organisation.

Further instructions on how to provide feedback are in the email with your Snapshot.

b. If you receive a sample Snapshot

Providers may receive a ***sample*** Snapshot that does not contain data for their organisation. This means that the Department currently does not have sufficient data to provide you with a Snapshot. However, you are still encouraged to provide feedback on the Snapshot.

You may wish to encourage your students to respond to the annual NCVER Student Outcomes Survey going forward to increase the chances of getting student outcomes information in the future.

c. Questions?

If you have any questions about the Snapshot, please email vetstudent.outcomes@det.nsw.edu.au.

For technical support in relation to this update, contact Training Market Customer Support at Training.Market@det.nsw.edu.au.

Please note that this update is for the information of approved Smart and Skilled providers only. If providers require further information for students or employers, please contact Training Market Customer Support, as above, unless otherwise instructed.
