

<b>UNIT CODE</b>	<b>OSM005</b>
<b>UNIT TITLE</b>	<b>Analyse performance of social media and online business tools</b>
<b>APPLICATION</b>	<p>This unit describes the performance outcomes, skills and knowledge required to use analytics tools to collect and analyse data on the performance of an organisation's social media and online presence. It requires the ability to evaluate and present reports on the effectiveness of social media and online business tools.</p> <p>It can apply to individuals who work independently or with limited guidance from others, including senior operational personnel and business unit managers. It would apply to small business owner operators who are responsible for a range of functions.</p> <p>This unit applies to any type of small, medium or large organisation that utilises social media and online tools for customer engagement including commercial, not-for-profit and government organisations. References to customers should be interpreted in the context of the particular industry and organisation which will use different terms to describe their stakeholders.</p> <p>This unit is designed for use across industries. Training and assessment should be contextualised to meet the particular requirements of the industry for which it is delivered.</p> <p>No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.</p>
<b>PREREQUISITE UNIT</b>	Nil
<b>COMPETENCY FIELD</b>	Online and Social Media
<b>UNIT SECTOR</b>	Cross Sector

<b>ELEMENTS</b>	<b>PERFORMANCE CRITERIA</b>
<i>Elements describe the essential outcomes</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

1. Identify analytics tools and functions.	1.1 Obtain information on inbuilt analytics tools provided by social media and online platforms. 1.2 Identify external providers of analytics tools. 1.3 Identify types of available data and functions to assist with analysis. 1.4 Determine how specific data can be used to measure and improve customer engagement.
2. Collect and analyse data.	2.1 Determine data analysis needs, select analytics tool and collect relevant data. 2.2 Filter, assess quality of data and cleanse to ensure relevance to analysis. 2.3 Identify trends in quantitative performance through statistical analysis. 2.4 Evaluate qualitative information and identify patterns. 2.5 Monitor performance of social media and online presence regularly to ensure ongoing effectiveness.
3. Evaluate performance.	3.1 Assess quantitative and qualitative information against business objectives for use of social media and online tools. 3.2 Determine success of online presence in engaging customers for general and targeted purposes. 3.3 Create and present reports on data analysis and evaluation, and include recommendations for future improvements.

FOUNDATION SKILLS	
<i>Foundation skills essential to performance in this unit, but not explicit in the performance criteria are listed here, along with a brief context statement.</i>	
SKILLS	DESCRIPTION
Reading skills to:	<ul style="list-style-type: none"> <li>■ interpret jargon specific to different types of social media and online analytics tools</li> <li>■ interpret the intent and extract relevant content of customer opinions expressed with differing levels of clarity.</li> </ul>
Writing skills to:	<ul style="list-style-type: none"> <li>■ produce cohesive data analysis and evaluation reports using language suitable for purpose and audience</li> <li>■ present factual information without ambiguity</li> <li>■ summarise and paraphrase a variety of customer opinions without altering meaning.</li> </ul>

Numeracy skills to:	<ul style="list-style-type: none"> <li>■ interpret numerical data of different complexity and complete routine calculations involving addition, subtraction, multiplication and percentages.</li> <li>■ extract, evaluate and interpret numerical data involving whole numbers and time periods from charts and graphs</li> <li>■ interpret and compare fundamental statistical information to draw conclusions.</li> </ul>
Problem-solving skills to:	<ul style="list-style-type: none"> <li>■ identify and cleanse inaccurate, duplicative and irrelevant data.</li> </ul>
Initiative and enterprise skills to:	<ul style="list-style-type: none"> <li>■ critically evaluate successes and failures of social media and online performance to suggest improvements.</li> </ul>
Self-management skills to:	<ul style="list-style-type: none"> <li>■ take responsibility for performance analysis from data collection through to evaluation and report presentation.</li> </ul>
<b>UNIT MAPPING INFORMATION</b>	No equivalent unit.
